

INTEGRATION ROADMAP: Use of Blended Learning

WEEK	DIDACTIC TOPIC	SIMULATED CLINICAL EXPERIENCE (SCE™)	SELF-DIRECTED LEARNING
Week 1	General Orientation Professional Conduct Scope of Practice Reflective Practice Survival Skills Nursing Documentation IV Safety Infection Control Medication Safety Admission, Discharge, Transfer Safe Patient Handling Occurrence Reporting Verbal and Electronic Communications		Fall Prevention Universal Protocol Clinical Alarms Patient Education Respiratory Management
Week 2	Nutrition Support Elimination Management Diabetes Management Medication Exam Wound and Skin Care Ostomy Management Surgical Tubes and Drains Respiratory Therapy Arrhythmia Course I	Chronic Obstructive Pulmonary Disease with Pneumonia	Moderate Sedation Personalities and Learning Styles
Week 3	Airway Management Chest Tubes Tracheostomy/Laryngectomy Management Arrhythmia Course II	Moderate Sedation Spontaneous Pneumothorax Tracheostomy	
Week 4	Peripheral Vascular Assessment Antithrombin Therapy Anticoagulant Management Blood Component Administration Arrhythmia Course III	Deep Vein Thrombosis/Pulmonary Embolism Blood Component Administration	Blood Component Administration

INTEGRATION ROADMAP: Use of Blended Learning

WEEK	DIDACTIC TOPIC	SIMULATED CLINICAL EXPERIENCE (SCE™)	SELF-DIRECTED LEARNING
Week 5	Shock Geriatric Care Pain Assessment and Management Advance Directives and Do Not Resuscitate Arrhythmia Course IV	Gastrointestinal Bleed Retroperitoneal Bleed Pain	
Week 6	Acute Coronary Syndrome Congestive Heart Failure Responding to Medical Emergencies Arrhythmia Course V	Acute Coronary Syndrome Unwitnessed Cardiac Arrest, Non-Shockable Rhythm Witnessed Cardiac Arrest Shockable Witnessed Cardiac Arrest, Automated External Defibrillation	Arrhythmias
Week 7	Culturally Competent Care Psychosocial/Spiritual Support	Increasing Ventricular Ectopy Atrial Fibrillation Supraventricular Tachycardia	Restraints Nasogastric/Orogastric Tubes
Week 8	Neurological Assessment Seizures Stroke Delirium/Dementia Alcohol Withdrawal Smoking Cessation	Care of the Seizure Patient Stroke Delirium	
Week 9	Fluid and Electrolyte Management Renal Failure	Renal Failure Postoperative Diabetic Patient	
Week 10	Integration	Moderate Sedation Integration Postoperative Integration STEMI with Atypical Symptoms Integration Witnessed Cardiac Arrest Integration	
Week 11	Arrhythmia Test Data Collection		
Week 12	On-Unit Competencies with Preceptor
