

**SEMESTER I: Nursing Foundations I****Professional and Ethical Practice**

Abnormal Variations in Heart Rate in a 16-Year-Old

Abnormal Variations in Heart Rate in an 87-Year-Old

Abnormal Variations in Heart Rate in a Six-Year-Old

**Care Delivery**

Basic Assessment of the Hip Replacement Patient

Basic Assessment of the Postoperative Gastrectomy Patient

**SEMESTER III: Caring for Patients with Chronic Illness****Professional and Ethical Practice**

Chronic Osteomyelitis on Home Antibiotic Therapy

Dementia and a Urinary Tract Infection, DNR

**Care Delivery**

Heart Failure and COPD

Postoperative Care of the Patient with Complications: Ileus

Spinal Cord Injury

**Care Management**

Cardiac Rehab

Acquired Immune Deficiency Syndrome and Mild Encephalopathy

Chemotherapy Administration with Nausea and Vomiting, Hypovolaemia and Low Cell Counts

Epilepsy in the Community

**Personal and Professional Development**

Asthma

Acquired Immune Deficiency Syndrome Who Develops Pneumocystis Carinii  
Pneumonia and Respiratory Distress

**SEMESTER II: Nursing Foundations II****Professional and Ethical Practice**

Basic Assessment of the Teenage Athlete with Fluid and Electrolyte Imbalance

Preoperative Care of the Patient Scheduled for a Cholecystectomy

**Care Delivery**

Postoperative Care of the Patient with Complications: DVT

Postoperative Care of the Patient with Complications: Pneumonia

Basic Assessment of the Spinal Cord Injury Patient

Postoperative Pain and Hypovolaemia

**Care Management**

Basic Assessment of the Adult Patient with Asthma

Basic Assessment of the Cardiac Patient

Chest Pain Management of the Medical Surgical Patient

Ruptured Diverticulum Postoperative

**Personal and Professional Development**

Loss of Consciousness

**SEMESTER III: Caring for Patients with Chronic Illness****Professional and Ethical Practice**

Chronic Osteomyelitis on Home Antibiotic Therapy

Dementia and a Urinary Tract Infection, DNR

**Care Delivery**

Heart Failure and COPD

Postoperative Care of the Patient with Complications: Ileus

Spinal Cord Injury

**Care Management**

Cardiac Rehab

Acquired Immune Deficiency Syndrome and Mild Encephalopathy

Chemotherapy Administration with Nausea and Vomiting, Hypovolaemia and Low Cell Counts

Epilepsy in the Community

**Personal and Professional Development**

Asthma

Acquired Immune Deficiency Syndrome Who Develops Pneumocystis Carinii  
Pneumonia and Respiratory Distress

**Semester IV: Care of Mother and Child****INFANT****Professional and Ethical Practice**

Abandoned Healthy Newborn

Shaken Baby Syndrome

Substance Exposed Neonate

**Care Delivery**

Congenital Cardiac Abnormalities

Septic Baby Secondary to Prolonged Rupture of Membranes

**Care Management**

Newborn with Respiratory Distress

Myelomeningocele

**PAEDIATRIC****Professional and Ethical Practice**

Paracetamol Poisoning

Asthma Attack in the Paediatric Patient

Traumatic Brain Injury

**Care Delivery**

Diabetic Ketoacidosis and Pneumonia

Fluid and Electrolyte Imbalance

Renal Dysfunction Secondary to Acute Streptococcal Glomerulonephritis

Postoperative Care of the Septic Paediatric Secondary to a Ruptured Appendix

**Care Management**

Cystic Fibrosis

Foreign Body Aspiration

Near Drowning Paediatric Patient

Terrorism by Chemical Agent

**Personal and Professional Development**

Amputation Secondary to Osteosarcoma

**MOTHER****Professional and Ethical Practice**

Abruptio Placentae Secondary to Cocaine Abuse

Postpartum Haemorrhage Two Hours Following Delivery

**Care Delivery**

Pregnancy Induced Hypertension

**Personal and Professional Development**

Amniotic Emboli

**SEMESTER V: Critical Care****Professional and Ethical Practice**

Sickle Cell Crisis

Chronic Heart Failure Exacerbation

Cardiogenic Shock Secondary to Acute Myocardial Infarction

Cocaine Overdose with Cardiac Arrest

**Care Delivery**

Suctioning and Trachea Care with Hypoxia

Acute Coronary Syndrome and Acute Myocardial Infarction

Syncope Secondary to Bradycardia Requiring Transthoracic Pacing Prior to Insertion of a Permanent Pacemaker

Diabetic Ketoacidosis

Acute Renal Failure

Gastrointestinal Bleed Secondary to Aspirin Abuse

Gastrointestinal Bleed Secondary to Varices and Liver Failure

Cerebral Vascular Accident

Brain Attack with Thrombolytic Therapy

Closed Head Injury with Increasing Intracranial Pressure

Spinal Cord Injured Patient with Neurogenic Shock

Burn Injury

Gunshot Wound Trauma

Motor Vehicle Collision with Abdominal Injury with Internal Bleeding and Hypovolaemic Shock

**Care Management**

Acute Respiratory Distress Syndrome

COPD Exacerbation with Respiratory Failure

Underwater Seal Drain Insertion and General Ongoing Care

Pulmonary Artery Catheter

Herniation Syndrome

Electrolyte Imbalance Secondary to Hyperemesis Gravidarum

**Personal and Professional Development**

Sepsis, Septic Shock and Multiple Organ Dysfunction

**Semester VI: Preparation for Practice****Professional and Ethical Practice**

Anaphylactic Reaction to Blood Administration

Postoperative Haemorrhage

Basic Dysrhythmia Recognition and Management

Intentional Overdose of a Hypnotic

**Care Delivery**

Heat Exhaustion in the Elderly Patient

Cardiopulmonary Arrest

Bleeding Disorder

Postoperative Craniotomy Patient with Cerebral Aneurysm and Diabetes Insipidus

Adult with Profound Multiple Learning (Intellectual) Disability and Pneumonia

**Care Management**

Chronic Diabetic

End-of-Life Care

Aortic Valve Replacement

Postoperative Pulmonary Embolism

Adult with a Moderate Learning (Intellectual) Disability Experiencing Status Epilepticus

Multiple Patient Care Management

**Personal and Professional Development**

Bioterrorism
